

FOCUS ON AFFILIATES
Milford & Dormor Solicitors

Some history.

Founded by William Forward, who qualified 1869/70, the Firm has spread from its original office in Axminster, Devon to a number of offices in Devon and Somerset, although dealing with clients not only there but throughout the Country and beyond. The Firm has a very wide range of legal and financial services, being one of the few to have an in-house independent financial services department. We offer a bespoke service for those taking early retirement or relocation to the West Country, with links to estate and property agents.

Many people view the area as an idyllic place to live. Whether working or in retirement, most locations are no far from the sea or areas of outstanding natural beauty and are just the places to recharge the batteries after a hard week's work or, in the case of those retired, a lifetime of work.

The Firm prides itself on its experienced and qualified staff. When relocating clients can be confident they are dealing with a long established practice with a wide range of services. The West Country has many unique features, which is why it can be extremely reassuring to have someone with local knowledge on your side. It may be an over used phrase but we do adopt a team approach, working with clients to help and advise to achieve their aims.

The Firm has always valued its long-standing membership of ARP and the Organisation's forward thinking attitude when promoting the interests of members.

If you need help and are thinking of moving, we are only a phone call away (01460 – 61000).
